

The American Heart Association Cardiology Fellows Society of Greater Boston

Launched in the fall of 2012: over 12 ACGME accredited cardiology programs in the greater Boston area participate representing over 220 cardiology fellows.

Our Mission

- To foster community among cardiology fellows in the greater Boston area
- To offer a forum to address educational and clinical issues specifically targeted to cardiology fellows
- To provide opportunities for public speaking
- To involve young physicians early on in the American Heart Association

Programs

A cornerstone of the fellows programming are the "Controversies in Cardiology" dinner meetings. These meetings provide opportunities for networking and unique educational programs. Case studies are presented by 2nd or 3rd year fellows, followed by an open and lively point/counter-point discussion with a panel of expert faculty. Program topics and format are different from other medical education programs cardiology fellows attend.

2016-2017 Year in Review

Let the Planning Begin - Liaison Meeting

August 16, 2016

The Fellows Society is led by a representative from each accredited cardiology fellows program in the greater Boston area and Co-Advisors Dr. George Philippides and Dr. Omar Siddiqi. Together they plan and implement educational programs throughout the year. It all starts with a brainstorming meeting.

Fellows Career Night: Explore Your Options**

November 29, 2016

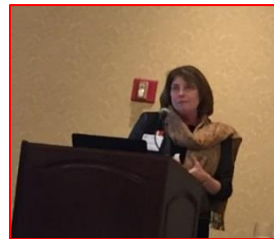

This program's goal is to assist cardiology fellows in developing their careers by providing important information including potential hurdles when negotiating contracts, an opportunity to have an informal dialog with experts within their fields and to obtain practical information about finding a job.

Plenary Session Presenters

Craig Napolitano, MD

Jill Braunwald Porter, Esq.

Ami B. Bhatt, MD, FACC - Moderator

Round Table Discussions with Distinguished Panelists On

Life of an Academic Cardiologist

Life of a Private Practice Cardiologist

Innovative Careers: Technology & Pharma

Innovative Careers: Health Administration & Quality Improvement

Controversies in Cardiology

Dissecting Difficult Clinical Decisions & Ethical Dilemmas of Surgical & Percutaneous Valve Procedures

January 10, 2017

The program's goal was to engage cardiology fellows in a discussion about the ethical dilemmas surrounding complex valvular intervention including: review of advanced imaging, plan hypothetical intervention strategies & the ethical "fork in the road" which added to conversation regarding guidelines & when to/not to act.

Distinguished Panelists
